

MAHAR IRRIGATION

DRIP IRRIGATION PIPE

LDPE Pipe & Online Drip Irrigation System.

We are Manufacturing The LDPE Pipes For Drip Irrigation System. Following Size are Manufacturing.

Model	Inside Diameter (mm)	Thickness (mm)	Standard Coil Length – Meter
MIS-IP-16-1.2	16mm	1.2	200
MIS-IP-16-1.5		1.5	200
MIS-IP-16-2.0		2.0	200
MIS-IP-20-1.5	20mm	1.5	200
MIS-IP-20-2.0		2.0	200
MIS-IP-25-1.5	25mm	1.5	200
MIS-IP-25-2.0		2.0	200
MIS-IP-32-1.5	32mm	1.5	200
MIS-IP-32-2.0		2.0	200

Any other Diameter / Coil Length can be supplied as per customer special request.

Working Pressure: 3 Bar at 20c (68 Deg, F)

Applications

Recommended for fruit crops like Papaya, Water Melon, Grapes, Pomegranate, Berry, Mango, Sapota, Guava, Amla, Banana, Custard apple and other.

Features.

Resistant to Ultraviolet rays, chemical and fertilizer used in drip system. UP to 70% of water will be saved. More land can be irrigated with the available water.

Open able dripper easy to clean.

UP to 50% of yield will increase

Fertilizer use efficiency increase by 30%.

Durable & Weather Resistant

Long Life

No environmental effects

Online Dripper Available

1-Micro Flow Dripper Online adjustable from 1-20 L/Hrs

2-Flow Dripper Online adjustable from 1-70 L/Hrs

3-Flow Dripper Online adjustable from 1-140 L/Hrs
